# Single Stage

With an exceptional design and outstanding features, our Single Stage air compressor comfortably satisfies the most demanding needs. Ideal for frequent or occasional use, the Single Stage Model is perfect for applications such as inflating, spray-painting, cleaning, stapling, grouting and so much more.

## Applications

Suitable for professional applications, from wood and metal workshops to auto body and repair shops.

Tire Inflation

Spraying

Cleaning

Fastening

## Standard Features

- Aluminum Pump Design
- Start/Stop Pressure Switch Control
- ASME Tank & Safety Valves

Fully Enclosed Belt Guard for Additional Safety and Optimized Air Flow

Model	Part Number	Gallon	Power Supply (V/Ph)	CFM @ MAX PSI	MAX PSI	Weight (lbs.)	L x W x H (in)
AB-224VP	8975705105	24V	115/1	7	145	150	22 × 19 × 47

# 2-Stage Hybrid Pro

Our 2-Stage Hybrid compressor combines innovative technologies, premium quality, aluminum pump with cast iron cylinders and an exceptional design that will be any professional's perfect partner. The inner cooling technology effectively manages operating temperature, reducing the risk of overheating and maximizing productivity.

## Applications

Suitable for a variety of applications including air and water spraying, impact wrenching, screwing and so much more.

Tire Inflation

Hammering

Spraying

Grinding

Fastening

Equipment Operation

Fully Enclosed  
Belt Guard For  
Additional Safety &  
Optimized Air Flow

ASME  
Compliant  
Tank

## Standard Features\*

- // Cast Iron Cylinders
- // Aluminum Head & Aftercooler
- // ASME Tank & Safety Valves
- // Fully Enclosed Belt Guard

Start/Stop Pressure  
Switch Control

\* Unless Otherwise Noted

// Fully enclosed belt guard for safe operations, maximized air flow and heat dissipation.

// Aluminum head and coolers allow for exceptional heat dissipation which results in smoother and quieter operation.

// Magnetic starter to safeguard electric motor and pressure switch from over amping damage.\*

# 2-Stage Hybrid Pro Duplex

Our revolutionary 2-Stage Hybrid Pro Duplex is designed for maximum productivity and efficiency. With alternating pumps and motors, the ABAC Duplex air compressors ensure that work is never delayed by cool down times. The dual pumps and motors work to reduce downtime and increase efficiency throughout your business.

## Applications

Ideal for applications that require a high variation of air output from intermittent-duty to 100% duty requirements.

Hammering

Spraying

Grinding

Fastening

Equipment Operation

Orbital Sanding

Dual Independent Pumps Help Maximize Uptime  
By Providing Backup or Simultaneous Operation

## Standard Features

- // Alternating Operation to Decrease Downtime
- // Hybrid Aluminum and Cast Iron Pump
- // Fully Programmable Control Panel Settings
- // Dual Control Increases Output

# 2-Stage Quiet Power Series

Ideal for smaller work environments, our 2-Stage Quiet Series provides a solution to high noise levels without compromising efficiency. Tailored for professional users, this series provides dependable performance in an extremely quiet package.

## Applications

Suitable for professional applications in need of consistent compressed air supply. Also, ideal for work environments where noise levels are a concern.

- Hammering
- Spraying
- Grinding
- Fastening
- Equipment Operation
- Orbital Sanding

## Standard Features

- Automatic Tank Drain
- Magnetic Starter
- High Temperature Switch
- Low Oil Level Switch
- 600 CFM Cooling Fan

# Ironman Engine Series

Combining strength, durability, and efficiency, the Ironman Engine Series provides superior performance that is essential for every day use. Designed for maximum productivity even in remote locations, this cast iron\* compressor is a reliable choice for light industrial and commercial applications without ready access to an electrical outlet.

## Applications

Suitable for heavy duty applications where the benefit of mobility is needed. Perfect for remote locations and where electrical power is not available.

Hammering

Spraying

Grinding

Nailing

## Standard Features

- Fully Enclosed Belt Guard
- 12V Electric & Recoil Start
- Hybrid & Fully Cast Iron Pump Selection
