

FORMULA M

Strong reliability, smart functionality.

Formula M

When long-standing experience meets technological improvement.

Taking advantage everyday, your FORMULA M will grant top performances.

Easy to use, reliable, efficient: FORMULA M is simply about that. Evolved to tackle the toughest industrial jobs, this air compressor results in cost savings and high performances.

Our famous user friendliness

Thanks to an intuitive control panel, you have a clear overview of all key parameters and system menus – so in a few touches you can easily drive your FORMULA M.

Besides, all the maintenance components like air, oil filters and belts are ideally positioned to enable an ultimately fast and secure maintenance.

Dedicated service kits support reliable and efficient operation and include all original parts in one single package. ABAC provides you with a simple solution based on the running hours of your compressor. All parts easy at hand while providing highest protection of your investment!

Simple installation and easy to use

- Plug-and-play
- Compact design = small footprint
- Plug-and-play integrated dryer
- Integrated WSD and post filter as option
- Easy and fully protected transport
- No special foundation needed
- Controller with integrated connectivity (Touchscreen controller option), easy overview of status on your phone

Reliable quality (gear vs. belt)

- Highly reliable gear transmissions, for a quiet and trouble-free operation
- High capacity oil/air coolers, perfect air filtration and cooling guarantee less thermal shocks and a longer lifetime.
- High quality and heavy duty motors with IP55 protection class
- IP54 electrical cubicle
- Internal and external protection for the electric fan

Easy to service

- All service components are located at the front of the machine for excellent accessibility, you just have to open the frontal door for an easy access for service or cleaning, easy access of the coolers, oil filter, separator and air filter replacements.
- · Oil-level eye at the front
- · Easy and quick check thanks to service door and controller
- · Service and cleaning is a one person job

Increase your productivity and reduce your risk of downtime

- Fast and simple service. Minimum service required during lifetime, only consumables.
- No need for belt tensioning thanks to gear driven transmission.
 Saving on time, reduce risk for errors and belt misalignment and service costs

Saving on your costs

- 3% savings vs.traditional belt drive transmissions
- IE3 motors as standard for Fixed Speed and Variable Speed units
- · Variable speed versions (30% savings)

FORMULA M

Controller and Connectivity

- User friendliness
 - Simplified display
 - Touch sliders next to the screen (Infologic² S) or full touch screen (Airlogic² T)
 - 2" Infologic² S or 4" Airlogic² T display
- Full control
 - Protect the machine with sensors, algorithms
 - Clear overview on machine parameters
- Remote monitoring
- Visualization service intervals
- Connectivity through ICONS pre-activated
- Optional ECO6i
- ICONS license is pre-activated in the factory
- Standard license: monthly update and service time

Optional Equipment

- 1. Airlogic² T
- 2. 8000h oil
- 3. Foodgrade oil
- 4. WSD
- 5. WSD + Electronic Drain
- 6. Main Switch
- 7. Canopy heater
- 8. Coalescent G post filter
- 9. Special approval on separation vessel
- 10. Wooden crate packaging
- 11. ECO6i + Airlogic² T

1. High quality Electrical components

2. Electric cubicle IP54

Inverter

3. Special protection for wires

4. Heavy duty

Encapsulated filter

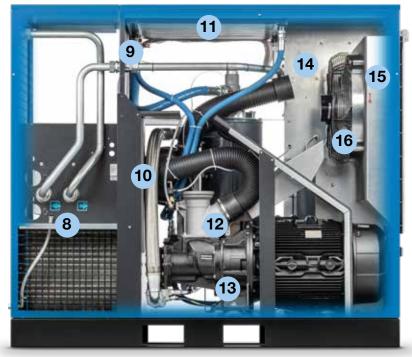

5. Reliable Separation System

 $OCO < 3 \text{ mg/m}^3$

Easy access to fill/drain oil and sight

6. Outlet on the side Rigid pipe connection

7. Rotary type refrigerant compressor Environment friendly Gas

8. Integrated dryer Compact integration

9. Pressure sensor

10. Steel armoured

Outlet pipe

11. Horizontal air-oil cooler

Large surface

12. Unloader valve

Vacuum type

- 13. Gear transmission service free
- 14. Air inlet from cold area
- 15. Inlet filtration panel
- 16. Axial fan

Independent motor IP54
